Data governance

The data governance document describes data changes introduced in this release as of the publication date of this document.

Adding new fields to your Veeva OpenData subscription

When Veeva OpenData adds new fields to a country that you are subscribed to, you can add the field to the subscription so that it's ready to receive data and be managed by Veeva OpenData.

For information about adding new Veeva OpenData fields to your subscription, see the topic called [Adding Veeva OpenData fields](#) in the *Veeva Network Online Help*.

Enabling Veeva OpenData fields for extended use

Veeva OpenData fields can be enabled to load local data or third party data. A field can be managed by Veeva in some countries, managed by a third party source in other countries, or be owned by a customer in the remaining countries.

Administrators can view ownership of the data model fields, by country, in the Network user interface by navigating to **Data Model** and choosing the **Customer Master** data domain. Click **Export Data Model** or select an object to view specific field details.

For more information about enabling Veeva OpenData fields for local or third party data use, see the topic called [Enabling data model fields](#) in the *Veeva Network Online Help*.

Data governance updates

No changes have been made to the reference data since the 22R1.1 Sandbox version of this document was published.

Country support

Veeva OpenData data models have been added for countries in Asia Pacific and Latin America.

Asia Pacific

Veeva OpenData data models have been added for the following countries:

- India (IN)
- Indonesia (ID)
- Malaysia (MY)
- Philippines (PH)
- Thailand (TH)
- Vietnam (VN)

The data models are based on the Other Countries (ZZ) data model. The data model also includes additional fields so they are consistent with other Asia Pacific OpenData data models.

The activated reference codes are based on the reference codes that are activated for Other Countries (ZZ), along with additional reference codes supported by the Asia Pacific OpenData team.

Localization

English (en) translations will be used for the Network UI and data model fields. Australian English (en-AU) translations will be used for reference data.

Latin America

Veeva OpenData data models have been added for the following countries:

- Bolivia (BO)
- Paraguay (PY)
- Uruguay (UY)

These data models are duplicates of the Mexico data model. They are based on the Other Countries (ZZ) data model and include additional fields so they are consistent with other Latin American OpenData data models.

The activated reference codes are based on the reference codes that are activated for Other Countries (ZZ), along with additional reference codes supported by the Latin America OpenData team.

Localization

Spanish (es) translations will be used for the Network UI and data model fields. Spanish-Mexico (es-MX) translations will be used for reference data.

Data privacy opt out

Veeva OpenData now manages HCP opt outs for the following countries:

- India (IN)
- Indonesia (ID)
- Malaysia (MY)
- Philippines (PH)
- Thailand (TH)
- Vietnam (VN)

Two data model fields will be enabled for the HCP object for this country:

- `data_privacy_opt_out__v`
- `data_privacy_opt_out_date__v`

Records that are opted-out by Veeva OpenData do not display in the Network UI and cannot be accessed in downstream systems. This ensures data privacy for opted-out HCPs to satisfy regional regulatory requirements.

To review the list of opted-out countries in the `data_privacy_opt_out__v` field:

1. In the Admin console, click **Data Model > Data Domains > Customer Master** and select the **Health Care Professional** object.
2. Click the `data_privacy_opt_out__v` field to open it and see opted-out countries.

Field updates for Asia Pacific

The fields will be automatically added to standard profile layouts, but they must be added to any custom profile layouts that you have created for these countries or regions.

South Korea

The following field is added to HCO and HCP objects:

- `international_name__v` – The name of the HCP/HCO in the Latin-based alphabet.

This is an existing field so it is not managed by Veeva OpenData.

India

The following field is added to the HCP object:

- `family_full_name__v` – The name of the patriarch in the family

This is a new field so it is managed by Veeva OpenData by default.

Field updates for Europe

The fields will be automatically added to standard profile layouts, but they must be added to any custom profile layouts that you have created for these countries or regions.

Tax ID field

The `vat_id__v` field (Value Added Tax ID) has been added to the HCP and HCO objects for the following countries.

- Belgium (BE)
- Bulgaria (BG)
- Croatia (HR)
- Czech Republic (CZ)
- Denmark (DK)
- Finland (FI)
- France (FR)
- Great Britain/United Kingdom (GB)
- Greece (GR)
- Hungary (HU)
- Ireland (IE)
- Luxembourg (LU)
- Netherlands (NL)
- Poland (PL)
- Portugal (PT)
- Romania (RO)
- Slovakia (SK)
- Slovenia (SI)
- Spain (ES)
- Sweden (SE)
- Turkey (TR)

This is an existing field so it will not be managed by Veeva OpenData by default.

Business ID field

The following field has been added to the HCP object for France and Monaco:

- `siret__v` – Système d'identification du répertoire des établissements (14-digit official identifier for businesses in France).

This is an existing field so it will not be managed by Veeva OpenData by default.

Healthcare Provider ID fields

The following existing fields have been added to several countries in Europe.

- `healthcare_provider_id__v` - HCP/HCO National ID (HCP and HCO objects)
- `healthcare_provider_id__2__v` – Second HCO National ID (HCO object)

Updated countries

- Andorra (AD)
- Albania (AL)
- Armenia (AM)
- Azerbaijan (AZ)
- Bahrain (BH)
- Belarus (BY)
- Bosnia and Herzegovina (BA)
- Croatia (HR)
- Georgia (GE)
- Greece (GR)
- Iceland (IS)
- Kazakhstan (KZ)
- Kuwait (KU)
- Kyrgyzstan (KG)
- Lebanon (LB)
- Luxembourg (LU)
- Moldova (MD)
- Monaco (MC)
- Montenegro (ME)
- North Macedonia (MK)
- Oman (OM)
- Romania (RO)
- Russia (RU)
- Saudi Arabia (SA)
- Serbia (RS)
- Slovenia (SI)
- Tajikistan (TJ)
- Turkmenistan (TM)
- Ukraine (UA)
- United Arab Emirates (AE)
- Uzbekistan (UZ)

These are existing fields so they will not be managed by Veeva OpenData by default.

Field updates for North America

The field will be automatically added to standard profile layouts, but it must be added to any custom profile layouts that you have created for this country.

United States

The following reference type field is added to the HCO object:

- `va_facility_type __v` – The type of Veterans Administration facility as reported by the US Department of Veterans Affairs (VA).

The `VAFacilityType` reference type is added to support this field.

Reference codes

| Network Code | Label (English) | Definition |
|--------------|---|--|
| VISN | Veterans Integrated Service Networks (VISN) | Veterans Integrated Service Networks (VISN) regional headquarters. |
| VAMC | VA Medical Center | Medical Centers provide hospital-based services such as surgery, critical care, mental health, orthopedics, pharmacy, radiology, and physical therapy. |
| CBOC | Community Based Outpatient Clinic | Community-Based Outpatient Clinics (CBOC) provide the common outpatient services in community locations. |
| VET | Vet Center | Vet Centers are community-based counseling centers that provide a wide range of social and psychological services. |
| CSP | Community Service Programs | Community Service Programs provide counseling for employment, housing, and benefit assistance. |

| Network Code | Label (English) | Definition |
|---------------------|-------------------------------|---|
| DMC | Domiciliary | Domiciliary facilities provide residential rehabilitation and treatment services for Veterans with multiple and severe medical conditions, mental illness, addiction, or psychosocial deficits. |
| CMOP | Mail Order Pharmacy | Consolidated Mail Order Pharmacy (CMOP) |
| INDLINIC | Independent Outpatient Clinic | Independent outpatient clinics that are in the VA healthcare network. |

This is a new field so it will be managed by Veeva OpenData by default.

Global data updates

The following sections describe reference data considerations and updates for applicable regions.

ALL COUNTRIES

The following changes have been applied:

| Object | Field | Reference Type | Code | Description (EN) | Translation |
|---------|------------------------|------------------|--------|------------------------|------------------------|
| Address | administrative_area__v | AddressAdminArea | LV-111 | Augšdaugavas novads | Augšdaugavas novads |
| | | | LV-112 | Dienvidkurzemes Novads | Dienvidkurzemes Novads |
| | | | LV-113 | Valmieras Novads | Valmieras Novads |

ALBANIA

The following changes have been applied:

| Object | Field | Reference Type | Code | Description (EN) | Translation |
|----------------|---|----------------|----------|-----------------------------|-------------|
| HCP, ParentHCO | primary_relation_type__v, relationship_type__v | RelationType | MEDTECH | Medical Technical Assistant | |
| | | | PHARTECH | Pharmacy Technician | |

AUSTRIA

The following changes have been applied:

| Object | Field | Reference Type | Code | Description (EN) | Translation |
|----------------|---|----------------|-------|----------------------------|-------------------------------|
| HCO | hco_type__v | HCOType | 32_34 | European Reference Network | Europäische Referenznetzwerke |
| HCP, ParentHCO | primary_relation_type__v, relationship_type__v | RelationType | 6 | Network | |

BELGIUM

The following changes have been applied:

| Object | Field | Reference Type | Code | Description (EN) | Translation |
|----------------|---|----------------|-------|----------------------------|--------------------------------|
| HCO | hco_type__v | HCOType | 32_34 | European Reference Network | Réseaux européens de référence |
| HCP, ParentHCO | primary_relation_type__v, relationship_type__v | RelationType | 6 | Network | |

BOSNIA AND HERZEGOVINA

The following changes have been applied:

| Object | Field | Reference Type | Code | Description (EN) | Translation |
|----------------|---|----------------|----------|-----------------------------|------------------------------|
| HCP, ParentHCO | primary_relation_type__v, relationship_type__v | RelationType | MEDTECH | Medical Technical Assistant | Medicinsko-tehnički asistent |
| | | | PHARTECH | Pharmacy Technician | Apotekarski asistent |

BULGARIA

The following changes have been applied:

| Object | Field | Reference Type | Code | Description (EN) | Translation |
|----------------|---|----------------|-------|----------------------------|-------------------------------|
| HCO | hco_type__v | HCOType | 32_34 | European Reference Network | Европейските референтни мрежи |
| HCP, ParentHCO | primary_relation_type__v, relationship_type__v | RelationType | 6 | Network | |

CROATIA

The following changes have been applied:

| Object | Field | Reference Type | Code | Description (EN) | Translation |
|----------------|---|----------------|----------|-----------------------------|------------------------------|
| HCO | hco_type__v | HCOType | 32_34 | European Reference Network | Europske referentne mreže |
| HCP, ParentHCO | primary_relation_type__v, relationship_type__v | RelationType | DENTAL | General Dental Practitioner | |
| | | | MEDTECH | Medical Technical Assistant | Medicinsko-tehnički asistent |
| | | | PHARTECH | Pharmacy Technician | Pomoćnik ljekarnika |

CZECH REPUBLIC

The following changes have been applied:

| Object | Field | Reference Type | Code | Description (EN) | Translation |
|----------------|---|----------------|-------|----------------------------|-------------------------|
| HCO | hco_type__v | HCOType | 32_34 | European Reference Network | Evropské referenční síť |
| HCP, ParentHCO | primary_relation_type__v, relationship_type__v | RelationType | 6 | Network | |

DENMARK

The following changes have been applied:

| Object | Field | Reference Type | Code | Description (EN) | Translation |
|----------------|---|----------------|-------|----------------------------------|-----------------------------|
| HCO | hco_type__v | HCOType | 32_34 | European Reference Network | Europæiske referencenetværk |
| HCP, HCO | specialty_1__v to specialty_10__v | Specialty | HYG | Hygiene & Environmental Medicine | |
| HCP, ParentHCO | primary_relation_type__v, relationship_type__v | RelationType | 6 | Network | |

**ESTONIA**

The following changes have been applied:

| Object | Field | Reference Type | Code | Description (EN) | Translation |
|----------|-----------------------------------|----------------|-------|---|--|
| HCO | hco_type__v | HCOType | 3_2 | Primary-level Medical and Health Care Institutions, Community Health Service Center | Esmatasandi meditsiini- ja tervishoiuasutused, kogukonna tervishoiuteenuste keskus |
| | | | 32_34 | European Reference Network | Euroopa tugivõrgustikud |
| | | | 4_45 | Fertility Center | Viljakuskeskus |
| | | | 4_51 | Specialized Clinic | Spetsialiseerunud kliinik |
| | | | 4_56 | Hospital, Teaching and University | haigla, õppetöö ja ülikool |
| | | | 4_6 | Association | Ühing |
| HCP, HCO | specialty_1__v to specialty_10__v | Specialty | 30 | Laboratory Medicine | laborimediitsiin |
| | | | CCE | Critical Care Medicine | erakorraline meditsiin |
| | | | CLP | Clinical Pathology | patoloogia |
| | | | D | Dermatology | dermatoveneroloogia |
| | | | FORM | Forensic Medicine | Kohtueksperitiisi meditsiin |
| | | | IG | Immunology | Immunoloogia |
| | | | MG | Medical Genetics | Meditsiiniline geneetika |
| | | | OBG | Obstetrics & Gynecology | sünnitusabi ja günekoloogia |
| | | | OM | Occupational Medicine | töötervishoid |
