Data governance

The data governance document describes data changes introduced in this release as of the publication date of this document.

Adding new fields to your Veeva OpenData subscription

When Veeva OpenData adds new fields to a country that you are subscribed to, you can add the field to the subscription so that it's ready to receive data and be managed by Veeva OpenData.

For information about adding new Veeva OpenData fields to your subscription, see the topic called [Adding Veeva OpenData fields](#) in the *Veeva Network Online Help*.

Enabling Veeva OpenData fields for extended use

Veeva OpenData fields can be enabled to load local data or third party data. A field can be managed by Veeva in some countries, managed by a third party source in other countries, or be owned by a customer in the remaining countries.

Administrators can view ownership of the data model fields, by country, in the Network user interface by navigating to **Data Model** and choosing the **Customer Master** data domain. Click **Export Data Model** or select an object to view specific field details.

For more information about enabling Veeva OpenData fields for local or third party data use, see the topic called [Enabling data model fields](#) in the *Veeva Network Online Help*.

Field updates for Asia Pacific

India

The following field has been added to the HCO object:

- `count_beds_recovery__v` – Number of recovery beds in HCO.

Additional field details

Managed by OpenData?	No. This is an existing field, so it will not be managed by OpenData by default.
Immediate data impact?	No. Enabling this field in your Network instance will not result in immediate data updates.
Profile layouts	This field is automatically added to standard profile layouts. It must be added to custom profile layouts created for these countries.

New Zealand

The following fields have been added to the HCO and Parent HCO object:

- `fax_1__v` – Primary fax number.
- `fax_2__v` – Secondary fax number.
- `fax_3__v` – Tertiary fax number.

Additional field details

Managed by OpenData?	No. These are existing fields, so they will not be managed by OpenData by default.
Immediate data impact?	No. Enabling these fields in your Network instance will not result in immediate data updates.
Profile layouts	These fields are automatically added to standard profile layouts. They must be added to custom profile layouts created for these countries.

The following field has been added to the HCO object:

- `business_type__v` – Type of business.

Additional field details

Managed by OpenData?	No. This is an existing field, so it will not be managed by OpenData by default.
Immediate data impact?	No. Enabling this field in your Network instance will not result in immediate data updates.
Profile layouts	This field is automatically added to standard profile layouts. It must be added to custom profile layouts created for these countries.

The following field has been added to the Parent HCO object:

- `email_1__v` – Primary email address.

Additional field details

Managed by OpenData?	No. This is an existing field, so it will not be managed by OpenData by default.
Immediate data impact?	No. Enabling this field in your Network instance will not result in immediate data updates.
Profile layouts	This field is automatically added to standard profile layouts. It must be added to custom profile layouts created for these countries.

Taiwan

The following fields have been added to the HCO object:

- fax_2__v – Secondary fax number.
- fax_3__v – Tertiary fax number.

Additional field details

Managed by OpenData?	No. These are existing fields, so they will not be managed by OpenData by default.
Immediate data impact?	No. Enabling these fields in your Network instance will not result in immediate data updates.
Profile layouts	These fields are automatically added to standard profile layouts. They must be added to custom profile layouts created for these countries.

Global data updates

The following sections describe reference data considerations and updates for applicable regions.

INDIA

The following changes have been applied:

Object	Field	Reference Type	Code	Description (EN)	Translation
HCP	professional_title__v	HCPProfessionalTitle	CMO	Chief Marketing Officer (CMO)	
			COO	Chief Operating Officer (COO)	
			HOPURCH	Head of Purchasing / Procurement	
			HRM	Human Resources Manager	
			LDMGR	Learning & Development Manager	
			MEDST	Medical Superintendent	
			NUSI	Nursing Superintendent	
			PROMG	Procurement Manager	
			SPROMG	Senior Procurement Manager	

TAIWAN

The following changes have been applied:

Object	Field	Reference Type	Code	Description (EN)	Translation
HCO	hco_type__v	HCOType	4_56	Hospital, Teaching & University	教學醫院
			4_6	Association	
HCP	hcp_type__v	HCPType	RES	Researcher	研究員
HCP, HCO	specialty_1__v to specialty_10__v	Specialty	ATP	Anatomic Pathology	解剖病理科
			D	Dermatology	皮膚科
			EM	Emergency Medicine	急診醫學科
			IM	Internal Medicine	內科
			OBG	Obstetrics and Gynecology	婦產科
			OM	Occupational Medicine	職業醫學科
			PS	Plastic Surgery	

Global data inactivations

The following sections list reference codes that have been inactivated by Veeva OpenData for the countries listed. Veeva OpenData does not use these codes in their data; you may choose to update reference code mappings accordingly unless they are required by your own data.

ALL COUNTRIES

The following changes have been applied:

Object	Field	Reference Type	Code	Description (EN)
Address	administrative_area__v	AddressAdminArea	CN-HEB	Hebei Sheng (CN-HEB)
			CN-HEN	Henan Sheng (CN-HEN)
			CN-HLJ	Heilongjiang Sheng (CN-HLJ)
			CN-HUN	Hunan Sheng (CN-HUN)
			CN-SAX	Shaanxi Sheng (CN-SAX)

ARMENIA

The following changes have been applied:

Object	Field	Reference Type	Code	Description (EN)
HCO	hco_focus_area_1__v to hco_focus_area_10__v	HCOFocusArea	DRUG	Drug & Alcohol Services
			EMERG	Accident & Emergency Medicine
			ENDOC	Endocrinology, Diabetes, & Metabolism
			ENT	Ear, Nose & Throat (ENT)

Object	Field	Reference Type	Code	Description (EN)
