Data governance

The data governance document describes data changes introduced in this release.

LICENSE ELIGIBILITY FOR US VEEVA OPENDATA

For US Veeva OpenData only, eligibility status for state licenses will be reviewed more frequently. This will ensure eligibility status is more closely aligned with license expiration dates to improve data accuracy.

Global data updates

The following sections describe reference data considerations and updates for applicable regions.

GENERAL DATA UPDATES

Full localization for the Network UI and reference data has been added for the following languages:
- Dutch
- Portuguese

Full localization of reference data only has been added for the following languages:
- Finnish
- Danish
- Norwegian
- Swedish

ANDORRA DATA UPDATES

A data model has been added for Andorra with reference data that matches the ZZ (other countries) data model.
The country code for Andorra (AD) triggers AdBlock which prevents some pages in Network from loading.
