Veeva Network 23R3.0.2 Patch Release Notes

January 2024

Contents

Updates in this release

This patch resolves the following issues:

- In some situations, users that have access to restricted custom fields cannot view the fields on record profiles.

- Updates to reporting tables are delayed.

- Some email, phone, and fax fields on Parent HCO records for Singapore do not contain data from Veeva OpenData.

- Inbound transformation queries add backslashes (\) to null values.
