Data governance

The data governance document describes data changes introduced in this release as of the publication date of this document.

Adding new fields to your Veeva OpenData subscription

When Veeva OpenData adds new fields to a country that you are subscribed to, you can add the field to the subscription so that it's ready to receive data and be managed by Veeva OpenData.

For information about adding new Veeva OpenData fields to your subscription, see the topic called [Adding Veeva OpenData fields](#) in the *Veeva Network Online Help*.

Enabling Veeva OpenData fields for extended use

Veeva OpenData fields can be enabled to load local data or third party data. A field can be managed by Veeva in some countries, managed by a third party source in other countries, or be owned by a customer in the remaining countries.

Administrators can view ownership of the data model fields, by country, in the Network user interface by navigating to **Data Model** and choosing the **Customer Master** data domain. Click **Export Data Model** or select an object to view specific field details.

For more information about enabling Veeva OpenData fields for local or third party data use, see the topic called [Enabling data model fields](#) in the *Veeva Network Online Help*.

Global data inactivations

The following sections list reference codes that have been inactivated by Veeva OpenData for the countries listed. Veeva OpenData does not use these codes in their data; you may choose to update reference code mappings accordingly unless they are required by your own data.

ARMENIA

The following changes have been applied:

Object	Field	Reference Type	Code	Description (EN)
HCO	hco_focus_area_1__v to hco_focus_area_10__v	HCOFocusArea	DRUG	Drug & Alcohol Services
			EMERG	Accident & Emergency Medicine
			ENDOC	Endocrinology, Diabetes, & Metabolism
			ENT	Ear, Nose & Throat (ENT)
			FAM	Family Planning
			FLU	Vaccinations/Immunisations
			FM	Family Medicine
			FOOT	Foot & Ankle Surgery
			GASTR	Gastroenterology
			GEN	General Surgery
			GER	Geriatrics/Gerontology
			GM	General Medicine
			GPM	Preventive Medicine
			GYNONC	Gynecologic Oncology

Object	Field	Reference Type	Code	Description (EN)
