Data governance

The data governance document describes data changes introduced in this release as of the publication date of this document.

Process change for release and maintenance notifications

As of February 1, 2018, Veeva is no longer managing lists for release and maintenance notifications.

To receive these types of notifications, go to trust.veeva.com and subscribe to the Network product. At the top of the page, click **Subscribe to Veeva Trust Site**.

For more information, see <https://support.veeva.com/hc/en-us/articles/115004142714-How-to-Opt-In-to-System-Availability-Notifications->.

If you have questions or require additional details, contact Veeva Support.

To receive notifications when Release Notes and Data Governance documents are published for each release, follow this page: <https://support.veeva.com/hc/en-us/sections/203656118-Network-Release-notes>.

Adding new fields to your Veeva OpenData subscription

When Veeva OpenData adds new fields to a country that you are subscribed to, you can add the field to the subscription so that it's ready to receive data and be mastered by Veeva OpenData.

For information about adding new Veeva OpenData fields to your subscription, see the topic called *Adding Veeva OpenData fields* in the *Veeva Network Online Help*: <https://docs-vdm.veevanetwork.com/doc/vndocad/Content/Home.htm>.

Enabling Veeva OpenData fields for extended use

Veeva OpenData fields can be enabled to load local or third party master data. A field can be Veeva-mastered in some countries, mastered by a third party source in other countries, or be owned by a customer in the remaining countries.

Administrators can view ownership of the data model fields, by country, in the Network user interface by navigating to **Data Model > Network Data Model**. For more information about enabling Veeva OpenData fields for local or third party data use source, see the topic called *Enabling data model fields* in the *Veeva Network Online Help*.
